

Asset Discovery

Discover Your Assets in a Snap!

OFFERING OVERVIEW

With Asset Discovery – Platform, identify IPs, web and mobile apps, servers, sub-domains, and other public-facing assets – protect them from security threats with AppTrana WAAP.

SALIENT FEATURES

Identify Your Public-Facing Web Assets

Discover your public-facing web assets (domains, subdomains, IPs, mobile apps, data centers, and site types).

Improve your organizational governance & operations as security, IT, and product teams now look at a single source of truth.

Add, Edit, & Delete Assets on the Fly

Maintain an up-to-date asset inventory with an option to add, edit as well as delete the asset information in real time.

Perform Deep-Dive Threat Hunting

Conduct vulnerability assessment and penetration testing (VAPT) on the identified assets for potential security vulnerabilities (e.g. OWASP Top 10, Zero-Day threats, application/business specific threats).

Protect Your Vulnerable Assets

Onboard the vulnerable assets on AppTrana WAAP & virtually patch critical vulnerabilities in 24 hours.

Become Audit & Compliance Ready

One-click export for all the asset details. Keep your business equipped with up-to-date documentation required for internal risk assessment and compliance purposes (SOC 2, GDPR, HIPAA, and similar compliances).

INDUSFACE SECURITY PRODUCTS FOR ASSET DISCOVERY & PROTECTION

Indusface WAS

Discover your assets and onboard your subdomains to perform automated security scans to detect vulnerabilities for OWASP Top 10, WASC 25, and more.

AppTrana – A Customers' Choice 2023 (Gartner® Peer Insights™ Voice of Customer Cloud WAAP Report)

Protect your web, mobile apps, and APIs from zero-day threats, OWASP vulnerabilities, and behavioral-based DDoS & Bot attacks 24/7.

HOW IT WORKS

Sign-up with basic details

Generate a list of identified assets

Scan the assets for vulnerabilities

Onboard the assets in AppTrana WAAP and protect them in real-time

SSL/VMC Certificates

Indusface is an Authorized Distributor of Entrust Certificates. Entrust's SSL/VMC Certificates offer advanced 256-bit encryption, ID assurance, protection against phishing attacks, and enable higher SEO rankings.

“

We use Indusface Web Application Scanning (WAS) for vulnerability assessment that provides us insights into our application security risk. One of the key reasons of our partnership with Indusface is their ability to continuously keep innovating around detection, using automated scanners, up and beyond OWASP top 10.

CISO

Axis Bank

We were looking for a WAF that focuses on attacker behaviour rather than variance signatures to mitigate the risk from application vulnerabilities. We decided to take the leap and partner with Indusface to protect our enterprise application footprint.

Dilip Panjwani

Global Head-Cybersecurity Practice & CoE,
LTI Mindtree

”

Indusface is an award-winning application security leader protecting 5000+ customers in more than 90+ countries. Our products are available On-premise, As-a- Service, and through the AWS Marketplace. We have are the Customers' Choice and the only Vendor with 100% customer recommendation in the Gartner Peer Insights Voice of the Customer Cloud WAAP Report 2023.
