

INDUSFACE

ZERO-DAY VULNERABILITY REPORT

FEBRUARY 2019

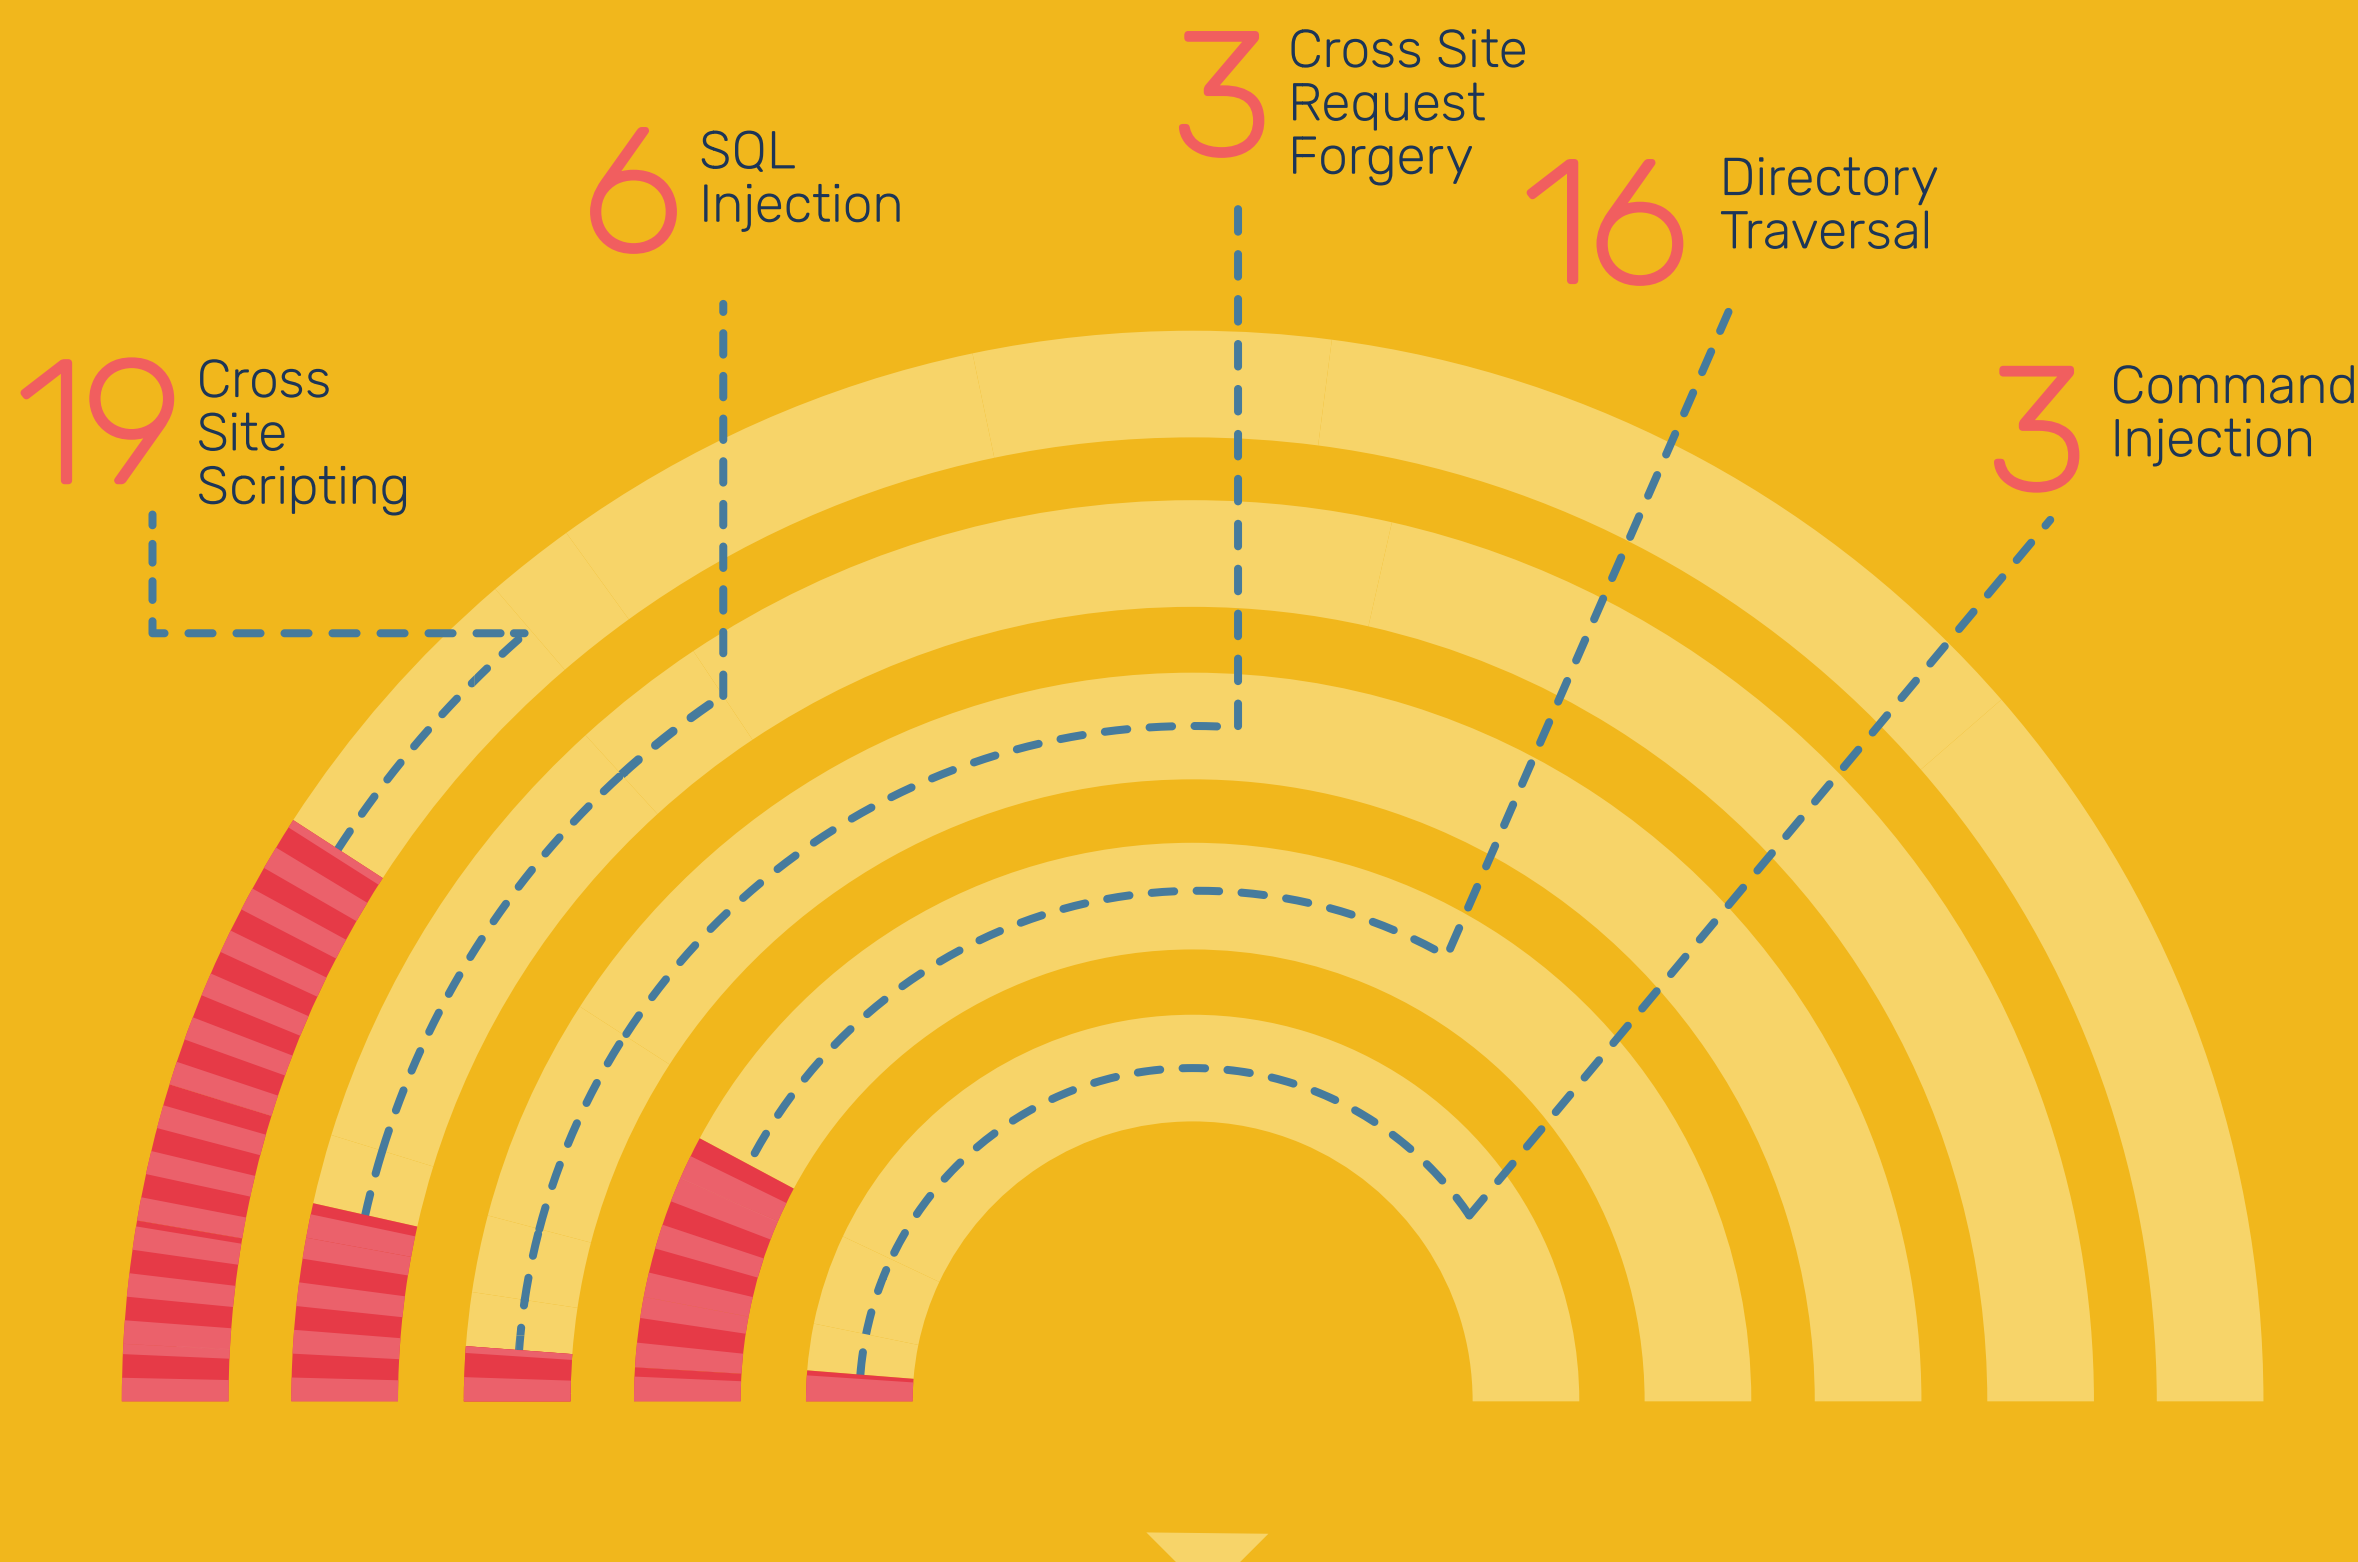

WHAT IT MEANS

The time taken to address a zero day puts your business at huge risk. Stay protected from Zero Day without code changes to the applications.

HOW WE PROTECTED OUR CUSTOMERS

84%

Zero day attacks blocked out of box even before day zero without any changes to our WAF policy. 100% of the attacks are blocked on day Zero with custom rules.

Vulnerabilities Blocked from Day Zero
 Required Custom Rules Written by Experts

Do not Succumb to Zero Day Attacks. Get Zero Day Protection
