

AI-ASSISTED PENETRATION TESTING

# API, AI, Mobile & Web App DAST and Pentesting

AI-assisted, expert-validated testing **finds 5X–10X more Critical & High vulnerabilities** than traditional DAST and manual pentests.

★★★★★ **G2 Leader** for Penetration Testing · Rated by verified enterprise reviewers

## The speed of AI, with the certainty of certified experts.

Certified experts run multi-model, AI-assisted pentesting to surface more vulnerabilities, without the false positives models generate on their own. Your pentesting process stays resilient and keeps pace with AI research.

- **Web:** certified testing aligned to OWASP Top 10, SANS 25 and WASC.
- **API:** automated DAST plus manual testing across REST, SOAP, GraphQL and WebSocket for OWASP API Top 10.
- **AI / LLM endpoints:** testing for prompt injection, data leakage and model abuse across GenAI-powered apps.
- **Mobile:** 150+ assessments covering OWASP Mobile Top 10 across iOS, Android and hybrid apps.
- **Business logic:** deep manual testing of transaction flows and authorization the scanners never reach.
- **Infra scanning:** network and infrastructure vulnerability scans.

## Why teams choose WAS

- 🔧 **Multi-model AI pentesting**  
Find 5x-10x more critical and high vulnerabilities.
- 🛡️ **Zero false positives**  
Reported vulnerabilities are expert-verified.
- 📄 **Audit-ready reports**  
Detailed reports for compliance and audits.
- ⚡ **Instant virtual patching**  
Autonomous vulnerability remediation with SwyftComply AI.

## Trusted by security teams worldwide.

EVERY AUDIT DETAIL, IN ONE REPORT

## One consolidated, audit-ready report

Every engagement lands as a single report across all your apps: clear enough for the board, detailed enough for your engineers. AI drives the speed and depth; certified experts own validation and every judgment call.

### ABOUT INDUSFACE

Indusface secures web, AI, and API applications of thousands of businesses across 95 countries. It is backed by institutional investors and is a category leader in cloud WAAP and API Security, with recognition from Gartner, Forrester and IDC, and is ISO 27001, SOC 2, PCI DSS, and GDPR compliant. Indusface AppTrana is the industry's only integrated, autonomous, enterprise-grade application security platform that discovers and remediates vulnerabilities, and protects web, API, and AI applications against DDoS, bot and Zero-day attacks. The human-in-the-loop system ensures zero false positives and SLA-backed compliance reports.
